3. ITEM BREAKUP

Schedule	Schedule	A-Execution of all works as detailed in schedule				
Item- 1	Earth Wor	rk				
S No.	Item No	Description of Item	Unit	Qty	Rate	Amount
		Earthwork in filling in embankment, guide bunds, around buried type abutments, bridge gaps, trolley refuges, platforms etc. with contractor's own earth conforming to Soil Quality Class SQ1/SQ2/SQ3, after preparation of foundations as applicable, benching in existing banks wherever required, spreading in layers with motor grader, bringing the moisture content to OMC, mechanical compaction to specified density and dressing of bank to final profile as per RDSO Specifications: RDSO/2020/GE: IRS-0004 with latest correction slips. Note: 1) Foundation preparation, Benching including additional earthwork on account of this, wherever required, shall be paid extra under relevant schedule item for benching. 2) Payment for Earthwork under this item shall be made based on the cross section measurements calculated (i) with original ground profile of existing bank based on initial ground levels before doing benching and (ii) final profile of the bank worked out with final levels as per				
1	011032	prevailing guidelines. Using Soil Class SQ2	cum	25000.00	253.42	6335500.00
		Earthwork in cutting in formation, trolley refuges, side drains, level crossing approaches, platforms, catch water drains, diversion of nallah & finishing to required dimension and slopes to obtain a neat appearance to standard profile inclusive of all labour, materials, plant & machinery, leading all cut spoils either to make spoil dumps or for filling in embankment with leads within 2 km on either side of edge of the cutting(s) including all lifts, ascent, descent, loading, unloading, bailing & pumping out water, if required, clearance of site and all other works incidental thereto for completing the work as per RDSO Specification No. RDSO/2020/GE: IRS-0004 with latest updated correction slips and to the satisfaction of the Engineer-in-Charge. Note: (i) All usable earth arising from cut spoils shall be led into bank formation and Unusable spoils shall be dumped / stacked away from toe of embankment. (ii) All hard rock /and boulders not fit for filling will be stacked by the contractor and will be property of the Railways. (iii) Cut trees shall be property of Railways and to be deposited in the railway godown unless specified otherwise in the Conditions of Contract.				
2	012011	In all conditions and classifications of soil except rock	cum	5000.00	106.59	532950.00
3	012012	Soft rock not requiring blasting	cum	500.00	252.66	126330.00
		Turfing / planting, including all lead & lift and watering as required until properly rooted with. Note: Initially payment of only 40% will be made. Balance 60% will be paid after 3 months of maintenance period, only if the turfing is properly rooted on entire turfed area.				
4	013021	Turfing with sods, 10cm thick and 20cm square closely laid.	100 Sqm	2000.00	5460.99	109219.80

Tender No: 4441-GRC-CE-C-II-03-2024 **Closing Date/Time:** 01/04/2024 12:00

		Providing portable fencing along running track where				
		work is to be done in close vicinity of track, maintaining during execution of work and removing				
		after completion of the work as per direction of the Engineer. Fencing shall consist of self supporting				
		steel angles of size 50mm x 50mm x 6mm, 1.5m long				
		provided with hooks etc. and embedded in CC 1:2:4 block of size 0.23m x 0.23m x 0.23m placed at c/c				
		distance of 2m along track. 12mm dia rods in three				
		horizontal layers shall be tack welded with angle				
		posts. Note: Released material will be property of the contractor after completion of work. Cost of cement				
		required for CC blocks shall be paid separately.				
5	013041	With provision of one 50mm wide retro-reflective tape in horizontal direction, duly secured/tight with vertical		100.00	215.48	21548.00
		posts.				
		Provision of barricading with contractor's bamboos / ballies vertical post of 100mm dia. planted at every				
		2m interval, projecting at least 1.5m above ground				
		level and driven firmly (minimum 0.5m) inside ground and including painting verticals & horizontals with red				
		luminous paints / strips at alternative bay on				
		barricade. Barricades shall be maintained through out				
		the execution of the work and shall be removed in workman like manner on completion of the work only				
		after instruction of Engineer in-Charge. Note: (1) 60%				
		payment shall be made on provision of barricading at work-site and balance 40% payment after removal of				
		barricades. (2) The released bamboos / ballies shall				
	Т	be the property of the Contractor.		T		
6	013051	With 3 horizontal bamboo / balli members of minimum 50mm dia. spaced equally	RM	1500.00	127.48	191220.00
7	013060	Supplying, driving and erecting in all types of soils, hard wood pile 5m to 7m long without joint, 125mm		100.00	190.40	19040.00
		average dia. for protection of bank slope including				
		two coats of coal tar paint complete, as directed.				
		Note: Payment will be made as per actual driven length of pile.				
8	013070	Driving rails 90R/52 Kg section below average ground		700.00	108.07	75649.00
		level within the slope/toe of embankment including making of nose with contractor's own arrangement				
		complete in all respect Note: Payment will be made				
		as per actual driven length of rail which will be supplied free by Railways at the site of work.				
		Supplied free by Hallways at the site of work.			Total	7411456.80
Schedule	Schedule	B-Execution of all works as detailed in schedule				
Item- 2		orks-Substructure	1	 	 	
S No.	Item No	Description of Item	Unit	Qty	Rate	Amount
		Earthwork in excavation by mechanical means (Hydraulic Excavator)/Manual Means for foundations				
		and floors of the bridges, retaining walls etc. including				
		setting out, dressing of sides, ramming of bottom, getting out the excavated material, back filling in				
		layers with approved material and consolidation of				
		the layers by ramming and watering etc. including all				
		lift, disposal of surplus soil up to a lead of 300m, all types of shoring and strutting with all labour and				
		material complete as per drawing and technical				
		specification as directed by Engineer in charge. Note:				
		This item will be used for excavation work in connection with other miscellaneous works also like				
		side drains, foundation for OHE masts and other				
		miscellaneous structures in connection with Gauge				
1		Conversion, Doubling, New lines.

			Set	conditions c: Dismantling of existing BG rossings and derailing switches Is and sleeper layout, removing ssings, sleepers & fastenings, correct profile & stacking all the sleepers, fastenings, rails, including segregating & stacking ns in a neat and countable lead of 250m & all lift, clear of ing of track, if any complete, as his item shall be operated only ut is replaced either with new TTR or with plain track when of more required at that location. It is paid extra under relevant item.	Under Traffic B Under Traffic turnouts, diamond with all types rails, switches, leveling of ballar eleased mat switches & cross at specified lemanner, within infringements, directed. Note when existing turnout in case existing turnout 2. Rail cutting value in the control of t	

Page 12 of 34 Run Date/Time: 07/03/2024 11:27:40

Tender No: 4441-GRC-CE-C-II-03-2024 **Closing Date/Time:** 01/04/2024 12:00

		Laying and linking of turnouts of all types including diamond crossings & Derailing switches with 52Kg / 60Kg rail section on PSC sleepers on prepared ballast bed for New lines or during total closure of section at indicated location as per standard drawing, duly leading sleepers, rails, switches, crossings, fastenings including rail cutting, drilling, fixing of all components, fittings with housing of tongue rails as per requirement of signaling, preparing ballast bed, filling and spreading of ballast as required, linking of turnout with track, attending track parameters including lifting, providing one round of packing to make track fit for 20 kmph speed including lubrication of fittings/fastenings, complete as directed by Engineer in-charge.				
14	072041	1 in 8½ Turnouts	Set	1.00	43746.23	43746.23
15	072042	1 in 12 Turnouts	Set	5.00	51034.51	255172.55
		Assembling on temporary staging and insertion of all types of switches including TWS on prepared ballast bed during traffic block, manually or by contractor's cranes, at specified location with 52Kg / 60Kg rail section on PSC sleepers with Railways rails/sleepers available within 250m as per standard drawing, duly leading sleepers, rails, switches, fastenings etc. including rail cutting, drilling, fixing of all components, fittings etc. with housing of tongue rails as per requirement of signaling etc. including preparation for operation of traffic block, including crossing of track, filling and spreading of ballast in crib and shoulder as required, linking with existing track, attending track parameters including lifting, providing one round of packing to make track fit for 20 kmph speed lubrication of fittings/fastenings, complete as directed by Engineer in-charge. Note: Required P.Way fittings shall be supplied at the SSE/P.Way stores.				
16	072061	1 in 8½ Turnouts	Set	2.00	18170.07	36340.14
17	072062	1 in 12 Turnouts	Set	2.00	23964.90	47929.80
		Unloading of ballast from Railway's Hopper Wagons, quantity distribution as per pre-defined site requirement, clearing infringements/jammed ballast, distributing the unloaded ballast uniformly over the track, profiling and boxing following all prescribed safety norms.				
18	084041	Under Traffic Block Conditions:	cum	2500.00	52.67	131675.00
19	121010	Dismantling of existing LWR/SWR track of any structure, removing rails, sleepers, fish plates, cutting of rails, segregation and stacking of released Rails, Sleepers and fitting at nominated location in countable manner within a free lead of 500m, levelling of ballast to correct profile for laying new track over it, all as per direction of Engineer-in-Charge.		3500.00	189.06	661710.00
00	1,000,10	Shifting & pairing of rails / panels unloaded alongside existing running track to adjoining formation of a new line including crossing of one track, duly lifting & pushing rail / panel without damaging it and taking all necessary precautions, so as not to infringe the running track, as directed by Engineer in-charge. Note: The rail barricading, if disturbed during working, should be restored to its original condition by the agency including re-fixing & concreting as required.		200 20	00.71	0040.00
20	122016	For rails/panels of more than 40m length - Under Conditions not requiring Traffic Block	IJINI	300.00	30.71	9213.00

Page 13 of 34 Run Date/Time: 07/03/2024 11:27:40

Tender No: 4441-GRC-CE-C-II-03-2024 **Closing Date/Time:** 01/04/2024 12:00

21	123030	Spreading of ballast, from existing stacks available along formation on top or at cess, in required uniform thickness, compaction of ballast layer laid on new formation at all the locations with smooth wheeled power roller of 8-10 tonne capacity to sufficient number of passes to form consolidated ballast bed of approximately 250mm thickness to a width of 4m symmetrical to centre line of proposed track in correct line & level with all ascents & descents, as directed by Engineer in-charge. Note: Item is inclusive of (a) providing ramp for taking roller to formation and removing the same & making good formation after completion of work; (b) redistribution & leveling of excess ballast while rolling to obtain uniform plane cambered surface.		30000.00	43.18	1295400.00
		Linking of BG track (except at LC, Bridges and SEJs) with any type of rail section and sleeper of specified density, on ballast bed spread and compacted with suitable roller, over prepared formation including leading free rails/welded panels available along the alignment on to formation, leading and spreading all fittings and fastenings, spreading of sleepers at specified spacing, squaring, placing of rails over sleepers and fixing rails to sleepers with all types of fittings and fastenings to correct gauge & alignment, lubrication of fittings and fastenings with contractor's grease as per IRPWM standards with contractors labour, tools, consumables, with all lead, lifts etc. complete and raising, levelling and initial packing of track to make it fit for 30 kmph and meet other prerequisites prescribed in Indian Railway Track Machine Manual for deployment of Tamping Machine. Note: 1.Rail cutting and Hole drilling shall be paid separately. 2.Spreading of ballast and compaction shall be paid separately under relevant item.				
22	123041	For sleeper density of 1660 sleepers per km	TRM	7000.00	279.30	1955100.00
		Shifting / Slewing the existing or newly assembled track of any rail section with any type of sleepers and any density under line block to correct locations & alignment and attending to one round kutcha packing to run safely at 20KMPH speed with all contractors tools and consumables complete and as directed by Engineer in-charge.				
23	123092	Maximum Shifting / Slewing for more than 1 metre & up to 2 metres	TRM	650.00	249.07	161895.50
		De-stressing of LWR/CWR track of any density under traffic line block with contractor's labours, tools, equipments and consumables inclusive of all lead & lift. Activities include cutting of LWR/CWR into convenient panels of specified length, removal of ERCs, liners, greasing of ERCs and liner contact area, lifting rails and keeping them on rollers provided at every 15 sleepers, working out elongation of rail ends depending on prevailing site conditions, pulling rails with the help of Hydraulic Tensor to achieve the desired elongation, cutting rails, as required, removing rollers and placing rail in position, re-fixing ERCs & liners and adjustment of gap at SEJs: Note: (1) Welding of rail joints will be paid separately. (2) Rail cutting and Hole drilling shall be paid separately. (3) Opening and closing of LC if required will be paid separately. (4) As per procedure prescribed in latest edition of IRPWM & CE's Circulars for destressing of LWR/CWR, if any.				
24	135012	With Contractor's Hydraulic Rail tensor	TRM	2000.00	38.27	76540.00
		1	l			

Page 14 of 34 Run Date/Time: 07/03/2024 11:27:40

Tender No: 4441-GRC-CE-C-II-03-2024 **Closing Date/Time:** 01/04/2024 12:00

		Maintenance of track on main line & loops, Points & crossings etc. including special attention to section for carrying out various maintenance works listed in Indian Railways P.Way Manual / Bridge Manual for safe running of goods and passenger trains with contractor's tools / labours etc. complete, as directed by Engineer in-charge. Note: Contractor shall arrange one gang at any point of time comprising of minimum specified labours with sufficient experience in P.Way working.				
25	136041	One mobile Gang comprising of 15 physically fit labours plus 1 Mate. Note: (1) In case, contractor provides less no. of Labour/Mate or for non availability of vehicle, payment will be deducted for each such person or non-availability of vehicle @ 20% of the accepted item rate, separately for each shortfall. (2) The Contractor shall keep one pick up Truck of minimum 1.5T payload capacity with Driver all the time and all expenditures for running at an average of 80 kms per day shall be born by the Contractor.	Day	60.00	14064.41	843864.60
		Anti-corrosive painting of rail outside track on rail bottom, web, foot and fishing plane with two coats of thickness of 100 microns each by bituminous black paint confirms to IS-9862 of reputed make including surface preparation, as a complete job as per procedure prescribed in latest edition of IRPWM.				
26	137011	For 60 Kg Rails	RM	20000.00	62.95	1259000.00
		Carrying out pre-tamping, during tamping and post-tamping works for tamping of Turnouts of all types Under Traffic Block Conditions which include:(1) Readjustment of ballast, heaping-up of ballast, filling-up of cavities in tamping zone by picking ballast from stacks / shoulders / crib of adjoining track up to lead of 50 m to ensure effective packing; (2) Clearing of ballast on sleepers to make them visible to operator; (3) Clearing of ballast over rail foot to facilitate holding of rail by rollers of UNIMAT; (4) Digging, screening and replenishment of ballast at mud pumping / rounded ballast in sleeper crib location; (5) Tightening of loose fittings including check rails immediately before & after tamping; (6) Replacement of broken / missing fittings supplied by Railway; (7) Correcting displaced sleepers to position along with squaring; (8) Re-setting worked-out / fallen fittings; (9) Removing and re-fixing joggled fish plates & wooden blocks, OHE bonds & other obstructions, wherever necessary; (10) Removing and re-fixing stretcher bar, as directed; (11) Adjustment in opening and housing of switch for testing operation of points (12)Manual consolidation of ballast in cribs and shoulders; (13) Stages of payment a) 30% of the rate will be paid on completion of post tamping; (14) Recovery at the rate of twice the applicable rate will be effected in case contractor fails to carry out any of the pre/during/post operation.

1	1	Installation of In-situ Glued Joint for 52/60 kg Rail as per RDSO drawing no. T-5361/T-5843 (6.5m. Long) conforming to the specifications as detailed in the "Manual for Glued insulated Rail Joint (Revised-1998)" with latest correction slip issued by Ministry of Railways, RDSO/Lucknow and in accordance with the process sheet of South Eastern Railway, with tsupply of all fittings and acessories, such as:- 1. Standard Fish Plate 950mm long as perRDSO's drawing. 2. HTS Bolts & Nuts 3. Purchased washers. 4. Insulating Brushes. 5. Insulating Channels. 6. 10mm thick End Post. 7. Araldite 8. Hardener 9.Glass cloth carrier with all materials & fixtures for cleaning and assembling excluding Rails. (Including fabrication of Glued Joint at site on running track under traffic block.)		20.00	18589.50	
3	3	Insertion of glued Rail joints at the required location as per direction of Engineer- in- Charge. The rate inclusive labour charge for handling the glued joint in depot, handling charge for testing of glued joint, loading, unloading of glued joints and transportation of the same from Railway store to work site replacement of glued joint if required, renewal and reinsertion of all types of fitting, cutting the Rails in the running track to make room for insertion of glued joint, transportation of released rail pieces to the nearest Rly's store, packing and aligning of the track to make it fit for traffic after insertion of glued joint. The glued will be supplied by the Rly at the nearby Railway depot free of cost. The contractor shall make the track fit for traffic after insertion of glued joint as per the Indian Railway slandered. The tenderer shall follow the safety rules laid down in the GCC-2019 of S.E.Railway during working. The rate also includes all taxes men and all material except the glued joint. Payment for welding will be paid separately.		39.00	13291.11	23222.20 518353.29
٥	3	through packing of Pt.& Xing in running/non running track i.e. for attending track after laying in initial packing within suitable interval as per IRPWM or as directed by Engineer- in- charge at site (1) 1 in12 Turn out. Note- unit set means per set per round.		39.00	13291.11	518353.29

2	2	Mechanical compaction of earthwork in formation in cum	20000.00	16.31	326200.0
		bank in layers not exceeding 300 mm in case of fill			
		material and 250 mm in case of subgrade &			
		blanketing material in loose state including watering,			
		drying and compacting with Contractor's vibratory			
		roller of minimum 10Ton capacity so as to achieve			
		the required moisture content and dry density at least			
		equal to 98% of the maximum dry density for item			
		no.1 & 2& and 100% in item no.3 of of this schedule			
		and in case of sand 70% of relative density as per			
		IS:2720 (Pt.VIII)-1983 and dressing the same to			
		standard profile as directed by the Engineer or his			
		representative. The Earth work shall be done as per			
		the guideline and specification of design of formation			
		forHeavy Axle Load Report NoRDSO/2007/ GE0014			
		of 2009 for 25T axleload and Specification No.			
		RDSO/2018/GE:IRS-0004 (D) part-IV), Dt.			
		25.07.2019. Sites which are inaccessible to normal			
		compacting equipment shall be compacted with the			
		help of Contractor's mechanical tampers of approved			
		type in layers not exceeding 100 mm. Notes: - (a)			
		Quantity payable shall be same as in item no 1,& 3.			
		(b) The minimum number of passes of the roller shall			
		be 8 or more depending upon field trials (as per IS:			
		10379- 1982) main criterion being to compact upto a			
		dry density equal to or more than 98% of the			
		maximum dry density of the fill material & 100% of			
		MDD in case of blanketing material referred to in the			
		description of the item. (c) Each layer shall be			
		continued to be rolled till the required dry density is			
		achieved uniformly throughout the layer. (d) Rollers			
		shall not be allowed near to any concrete surface			
		closer than 1500 m. And the entire fill in this space			
		shall be mechanically tamped. Final rolling of the top			
		most layers shall be done with a smooth wheel tyre			
		roller (e) Filling behind minor bridges and culverts			
		shall be done simultaneously from both sides. (f) In			
		back filling over structures, material shall be			
		deposited in layers of 100 mm. thickness, sloping			
		away from the structure with each layer carefully			
		tamped. (g) Where the moisture content of the earth			
		in any layer is above optimum moisture content, the			
		same shall be left for drying for suitable period to			
		bring down the moisture content very near to			
		optimum moisture content before rolling is			
		commenced. If the soil is dry, water shall be sprinkled			
		over the spread layer, as convenient in order to attain			
		moisture content near to optimum moisture content			
		before rolling is commenced. (h) Each layer shall be			
		compacted to the desired density over it's entire width			
		before commencing the compaction of next layer. (i)			
		While compacting, it shall be ensured that there is a			
		minimum overlap of 200 mm. (8") between			
		successive runs of the roller. (j) The dry density of			
		each layer of compacted soil shall be ascertained by			
		taking soil samples collected from either side of the			
		center line across the track with a few taken at			
		random near the edges as per IS;2720(Pt.XXVIII and			
		XXIX)-1974, 1975 respectively a minimum of three			
		samples shall be taken between any two chainages.			
		(k) No additional payment shall be made for making			
		well the deficiencies due to natural sinking or			
		subsidence of original ground due to movement of			
		heavy equipment and the Contractor shall have to			
		make good all the deficiencies. (I) Water required for			
		work will be arranged by the Contractor at his own			
		cost. (m) The roller to be used shall be got			
		approved by the Engineer-in-charge before use.

General Instructions

S.No.	Description	Confirmation		
		Required	Allowed	Uploading
1	Notes for all schedules: Standard Schedule of Rates (SSOR) Items: Any item of work carried out by the Contractor on the instructions of the Engineer which is not included in the accepted Bill(s) of Quantities but figures in the Standard Schedule of Rates (SSOR), shall be executed at the rates set forth in the "Standard Schedule of Rates (SSOR)" modified by the tender percentage as accepted in the contract for that chapter of Standard Schedule of Rates (SSOR). However, the cumulative value of all such extra item(s) together (modified by the respective tender percentage) shall not exceed 10 % of the original contract value.	No	No	Not Allowed
2	Option of Payment through Letter of Credit (L.C.): Tenderer(s) may submit option for taking payment through Letter of Credit (L.C.). [Refer para 7.1 of tender document].		No	Not Allowed
3	Credentials if submitted in foreign currency shall be converted into Indian currency i.e., Indian Rupee as under: The conversion rate of US Dollars into Rupees shall be the daily representative exchange rates published by the Reserve Bank of India for the relevant date. Where, relevant date shall be as on the last day of month previous to the one in which tender is invited. In case of any other currency, the same shall first be converted to US Dollars as on the last day of month previous to the one in which tender is invited, and the amount so derived in US Dollars shall be converted into Rupees at the aforesaid rate. The conversion rate of such currencies shall be the daily representative exchange rates published by the International Monetary Fund for the relevant date.	No	No	Not Allowed
4	Electronic Reverse Auction (eRA) is applicable in works tender valued more than Rs 50 crore in each case. [Refer para 7.2 of tender document].	No	No	Not Allowed
5	Contract under EBR (IF): It is agreed by and between the parties that Railway shall continue to be held responsible for all obligations, risk and liabilities, whatsoever, arising out of or in connection with the Principal agreement and this novation agreement, whether during the progress of the work or after its completion. It is further agreed and understood by and between the parties that IRFC shall be the owner of assets, if any, arising out of execution of works as defined in the Principal Agreement, except the land whose ownership shall continue with Railway. Accordingly, the invoices shall be issued by capturing GSTIN of contractor (as the supplier) and GSTIN of IRFC (as bill to party). Also, the contractor shall submit the invoice, issued in the name of IRFC, to railway for processing payment by Railway to contractor subject to applicable TDS under the Income Tax, GST or any other applicable laws. It is further agreed by and between the Parties that IRFC shall be responsible to comply with Income Tax and GST laws in relation to filling of returns.	No	No	Not Allowed
6	There are several changes in the tender document after the new GCC April 2022 is issued. Tenderer(s) are requested to go through the tender document & GCC carefully before the submission of the offer.		No	Not Allowed
7	Clarification of Bids: To assist in the examination, evaluation & comparison and pre-qualification of the Tender, the Railway may, at its discretion, ask any Bidder for a clarification of its Bid. Any clarification submitted by a Bidder that is not in response to a request by the Railway shall not be entertained or considered. The Railway request for clarification and the response of the bidder in this regard shall be in writing. However, if a Bidder does not provide clarification of its bid by the date and time communicated in the Railway request for clarification, the bid shall be evaluated as per the documents submitted along with the bid.
