रेल मंत्रालय MINISTRY OF RAILWAYS
(रेलवे बोर्ड RAILWAY BOARD)

No. 2022/GS/Stn. Dev.-I/08/70

New Delhi, dated: 31.01.2023

**The General Managers,
All Zonal Railways.**

Sub: Amrit Bharat Station Scheme for Indian Railways

Ref. : 1. Railway Board letter of even number dated 23.12.2022, 26.12.2022
2. Railway Board's letter no. 2021/Stn. Dev.-I/08/18 dated 04.05.2022 and 03.10.2022

The progress of station development works has been reviewed at Railway Board and it has been decided that the works for stations identified for development/feasibility studies under the instructions issued by Railway Board vide reference (1.) and (2.) above shall be carried out under the Amrit Bharat Station Scheme.

The extent of development shall depend upon the phasing of the Master Plan as per above ref. letters. List of 1275 stations identified so far under the scheme and ref. letters is attached herewith.

This issues with approval of Board (M/Infra, M/O&BD, M/F, CRB & CEO).

रेल मंत्रालय MINISTRY OF RAILWAYS
(रेलवे बोर्ड RAILWAY BOARD)

No. 2021/Stn. Dev.-I/08/18

New Delhi, dated: 04.05.2022

The General Managers,
All Zonal Railways.

Vice Chairman,
Rail Land Development Authority,
DMRC Building, Ajmeri Gate,
New Delhi.

Sub: Comprehensive instructions for umbrella work of Major Upgradation of Railway Stations on Indian Railways.

It has been Ministry of Railways' endeavour to develop/upgrade/modernize railway stations to provide enhanced and modern facilities to the passengers. Various developmental schemes viz. Model, Modern, Adarsh Station and Umbrella work Schemes have been launched over a period of time. These schemes were small and scattered in nature which, generally, did not involve major architectural planning to improve the overall aesthetic look of the stations.

2. Consequently, Railway Board reviewed the progress of ongoing works related to Upgradation/Modernization/Beautification of Railway station buildings under various schemes/umbrella. As a parallel measure, it has been decided to introduce a **new scheme for Major Upgradation of Railway Stations**. The modalities of scheme including identification/selection of stations, broad objectives, scope of work are as under:

I. Modality of scheme:

Under this scheme, priority will be given to those works which improve the ease of movement of passengers, their convenience and integration of station with surrounding areas. The development of identified/selected stations will be taken up in phased manner over coming years. The scheme will be implemented through Umbrella works sanctioned from time to time.

Criteria for Identification/selection of Stations under the scheme:

- NSG-1, NSG-2, NSG-3 category of stations;
- Other stations of tourist and pilgrimage importance;
- Divisional and Zonal headquarter stations;
- Any other stations with local significance identified with the approval of Railway Board.

Identification of Railway Stations should be done on priority based on above criteria. Spatial distribution over States should also be considered while identifying Stations for development.

II. Broad objectives:

- The new scheme aims at Upgraded stations functioning not just as a place where people come to board the train, but also as a City Centre where various other

business activities such as shopping, leisure, meetings, stay etc can also be performed.

- b. Seamless multi-modal connectivity and strengthening of access roads around the stations to enable station function as city centre, act as a driver of local economy and facilitate towards Transit Oriented Development.

III. Scope of Work:

To meet the above objectives, following broad scope of work is envisaged:

- a. Rebuilding/ improvement/ augmentation of station building to provide an iconic structure with modern state-of-the-art facilities and futuristic design with a 40-60 year horizon.
- b. Integration with both sides of the city (station buildings on both sides of railway lines) as far as possible along with segregation of Arrival and Departure. Inclusion of large spaces accessible to general public and commercial spaces. Upgradation of connectivity to the stations for smooth traffic flow in coordination with the state government/ local bodies for widening, strengthening or creating new roads, pedestrian paths, cycle paths, skywalks and bridges etc. to improve accessibility and modal integration.
- c. Inside the station, passengers shall be provided comfortable minimal queuing, movements, waiting and availing facilities like ticketing, tapped potable drinking water, toilets and retail etc. Flexible access control provisions. The spaces inside the station and traffic circulation/parking facilities shall be well designed and must cater to the current and future projected traffic. For this purpose, modularity of construction shall be ensured such that facilities can be further upgraded in future, if required. Full length covered platforms shall also be provided for the convenience of the passengers as per the design of the station.
- d. Booking/Reservation Offices should preferably be housed inside the main station building. In case, due to design limitation, they are placed in a separate building, covered pathway in sync with the overall design of the station be provided.
- e. Roof plaza/concourse shall be provided wherever possible, such that the passengers and other users can wait comfortably and enjoy superior and well-designed amenities for passengers like lounges, recreation areas, waiting areas, seating arrangement, shopping areas, restaurants/cafeterias, tapped potable drinking water points, restrooms, acoustically designed and soothing public announcement system, Wifi, ATMs, Tourist facilitation counters, medical facilities, charging points, Help-booths etc. Concourses shall be in multiples of 36/72/108 m as far as possible. Departure and arrival passengers shall be segregated to the extent possible except at the platforms. As far as possible, Foot Over Bridge (FOBs) shall be used to supplement the concourses to segregate arrival/departures.
- f. Aesthetically appealing solutions for platform surfaces, covers, furniture, OHE masts, through roofs as per need of the architectural scheme etc. shall be provided. Elements of local art and culture shall be included in the station's interiors.
- g. The upgraded station complex must focus on user-experience. Solutions must be implemented for good illumination, combination of lift/escalators/travelators for a comfortable movement, logical way finding, signages, acoustics, vibration control, coverage of entire area by CCTV cameras, and emergency evacuation in case of fire/other incidences etc. The complete upgraded station complex shall be Divyang friendly.
- h. Upgraded railway stations shall have elements of sustainability including but not limited to efficient energy/water conservation, superior waste management and shall

as far as possible be driven through technologies like Supervisory Control and Data Acquisition (SCADA), Building Management System (BMS) etc.

- i. Well planned drop-off/pick up for passengers. Pre-defined places for Cabs/Aggregators, public transportation etc. Parkings at Station shall have charging points, preferably with fast charge facility, for Electric Vehicles for two, three and four wheelers, for public as well as private vehicles.
- j. Development of Parcel area with connecting well-lit pathway for cart plying.
- k. Station shall endeavour to optimally utilize the solar energy potential of the location.
- l. Special focus may be given on improving tree cover of the station area.

3. Scale of amenities and facilities to be provided shall be finalized based on the broad guiding principles given above and stakeholder consultations. Further, for improvement beyond railway area, consultations shall be held with local bodies, Urban Transportation (Metro), other similar bodies and a comprehensive plan shall be prepared. The present Scheme shall also evolve with future instructions issued by Railway Board from time to time.

4. The scheme will be independent of station redevelopment projects being executed through leveraging of commercial potential of land and airspace at and around stations.

5. This issues in consultation with the Traffic Commercial Dte. and with concurrence of Finance Dte. of Ministry of Railways.

Sub: Comprehensive instructions for umbrella work of Major
Upgradation of Railway Stations on Indian Railways
Ref.: Railway Board letter No. 2021/Stn. Dev.-I/08/18 dated
04.05.2022

Comprehensive instructions for Major Upgradation of Railways stations issued vide above ref. have been examined and it has been decided to issue further clarification regarding Roof Plaza/Concourse sizes etc. for the stations as given below:

1. The width (dimension along the track) of the Roof Plazas shall preferably be 72 m except at very small stations where this dimension shall be 36 m. Further increase in width shall be in multiples of 36 m as far as possible.
2. The Roof Plazas will also have space for Central Government schemes like One Station One Product etc.

These instructions will be applicable for all new stations to be assigned to Zonal Railways for execution under the Umbrella works for Major Upgradation of Railway Stations. This issues with approval of Board(M/Infra, M/O&BD, M/F, CRB & CEO).

रेल मंत्रालय MINISTRY OF RAILWAYS
(रेलवे बोर्ड RAILWAY BOARD)

No. 2022/GS/Stn. Dev.-I/08/70

New Delhi, dated: 23.12.2022

The General Managers,
All Zonal Railways.

Vice Chairman,
Rail Land Development Authority,
DMRC Building, Ajmeri Gate,
New Delhi.

Sub: Amrit Bharat Station Scheme for Indian Railways.

Ministry of Railways has formulated the policy for Major Upgradation of Railway Stations vide its letter no. 2021/Stn. Dev.- I/08/18 dated 04.05.2022 and 03.10.2022 which envisages complete redevelopment of Railway stations, creation of city centres along with provision of Roof Plazas. While creation of city centres and Roof Plazas is the ultimate target for development of stations, it is essential that development at stations gradually moves in this direction with minimal duplication of expenditure. In view of the above, a new policy for modernization of stations named "Amrit Bharat Station Scheme" has been conceptualized. Amrit Bharat Station scheme envisages development of stations on a continuous basis with a long term vision. It is based on Master Planning for long term and implementation of the elements of Master Plan as per the needs and patronage of the station.

2. Modality of scheme:

The Amrit Bharat Station scheme shall generally be executed through various umbrella works for Customer Amenities Plan Head(PH-53) sanctioned from time to time. Existing Umbrella works of PH-53 can also be used to achieve the objectives of the scheme. DRMs can phase the hiring of suitable experts at different times as per needs of the station and engaging all experts in one go is not mandatory. Works may also be planned in different stages under different umbrellas as per the needs of the Master Plan.

3. Broad objectives:

- 3.1 The scheme aims at preparation of Master Plans of the Railway stations and implementation of the Master Plan in phases to enhance the facilities including and beyond the Minimum Essential Amenities (MEA) and aiming for creation of Roof Plazas and city centres at the station in long run.
- 3.2 The scheme shall aim to meet the needs of the stakeholders, station usage studies as far as possible based on availability of funds and inter-se priority.
- 3.3 The scheme shall cater for introduction of new amenities as well as upgradation and replacement of existing amenities.
- 3.4 This scheme may also cover the stations where detailed techno-economic feasibility studies have been conducted or are being conducted but the work for construction of Roof Plazas has not been taken up yet, ensuring the phasing of Master Plan being suitably implemented and relocation of structures and utilities being given more emphasis in the phasing plans.

A
23/12/22

Q
23.12.22

4. Scope of Work:

To meet the above objectives, following broad scope of work is envisaged for stations selected under the Amrit Bharat Station scheme in order to achieve the Instructions issued vide letter no. 2021/Stn. Dev.- I/08/18 dated 04.05.2022 and 03.10.2022:

- 4.1 All improvement plans shall be made with help of architects/traffic planners and/or user experience consultants as decided by DRMs. The Master Plans should have elementary details of the most appropriate location of Roof Plaza to be created in future.
- 4.2 The scheme envisages cost efficient improvement to facades, provision of wide, well lit aesthetically pleasing entrance porches.
- 4.3 Existing building usage shall be reviewed and space should be released in favour of passengers near the station entrances and the Railway offices should be suitably relocated.
- 4.4 The scheme aims to relocate redundant/old buildings in a cost efficient manner so that space is released for higher priority passenger related activities and future development may be carried out smoothly. Creation of new buildings should generally be avoided other than those required for relocation of old structures or relocation of structures to improve circulation or provision of structures to improve the size of waiting halls. Decision in this regard shall be taken by DRM considering all relevant factors.
- 4.5 Attempts shall be made to club different grades/types of waiting halls and provide good cafeteria/retail facilities as far as possible. Suitable low level partitions may be done in waiting halls if required.
- 4.6 Provision for minimum two stalls for One Station One Product shall be made.
- 4.7 Space shall also be created for Executive Lounges and places for small business meetings.
- 4.8 At least one aesthetically designed hoarding(signage) on each side of the circulating area at a prominent location shall be erected for display of important information etc. The size of such hoarding shall not be less than 10mx20m.
- 4.9 Station approaches should be improved to ensure smooth access by widening of roads, removal of unwanted structures, properly designed signages, dedicated pedestrian pathways, well planned parking areas, improved lighting etc. Necessary liaison should be established with local authorities for necessary improvements to be carried out by local authorities in their areas.
- 4.10 Elements of landscaping, green patches and local art and culture should be used to create a pleasant experience for the station users. This should be done with the help of suitable professionals.
- 4.11 Second Entry Station Building and circulating area shall be improved as per the needs of the station. Wherever second entry building is not being provided presently, space for circulating area will be well planned and a liaison shall be established with the local bodies so that approach roads for second entry are kept in the city's Master Plan and development around the station is suitably controlled.
- 4.12 High level platforms(760-840 mm) shall be provided at all categories of stations. Length of the platforms shall generally be 600m.
- 4.13 Length, location and phasing of Platform shelters shall be decided by DRM based on usage of the station. Generally, 16m long bays at not more than 100 m centre to centre distance may be taken as a reference.
- 4.14 Ballastless tracks(BLT) should be provided on platform lines and lines with train maintenance facilities. Proposals and execution of works should be planned in

CL
23/12/22

23.12.22

- suitable phases. Due care should be taken that provision of BLT on platform lines which are also mainlines should not lead to reduction of speed potential or cause imposition of any speed restriction in future.
- 4.15 Drainage of platform areas is of utmost importance. Special emphasis shall be given to achieve self cleansing of drains as far as possible. Suitable cross drains, sump and pump arrangement may be provided where natural slopes are not adequate. Drains may be covered with aesthetically designed theft resistant covers.
 - 4.16 Cables should be laid in aesthetically designed duct or cable trays and should have provision for future cables as well.
 - 4.17 The Master Plan shall mark the space for Parcel handling spurs, storage and handling facilities etc. Works should also be proposed and executed in suitable phases.
 - 4.18 Provisions may be made such that the station provides free WIFI access to its users following all guidelines issued by DoT. The Master Plan should have suitable spaces earmarked for 5G tower/pole mounts.
 - 4.19 Material finishes of elements, such as flooring, walls, structures, furniture, sanitary fittings, etc. within the public areas of the station where surfaces either come in direct physical contact of passengers or are visible to them should be highly durable (preferably washable), generally dustproof and need low maintenance.
 - 4.20 The furniture available on Waiting halls, Platforms, Retiring Rooms, Offices shall be reviewed and intervention planned for more comfortable and durable furniture suitable to the Railway Stations of that area. In a phased manner, it shall be planned to eliminate multi-design furniture. Released furniture etc. may be suitably utilized on other stations/locations if deemed fit.
 - 4.21 All signages/display boards including train indication boards and coach guidance systems/boards should be positioned for intuitive way finding, should have good visibility and be aesthetically pleasing. Public announcement system should be designed with the help of suitable professionals to ensure quality.
 - 4.22 Escalators may be provided at NSG/1-4 and SG/1-2 category stations irrespective of footfall. Mode of procurement(works/stores) may be decided by DRMs. Planning for approval of GADs should be done well in advance to speed up the work of installation of escalator/lift and optimize the overall time schedule of commissioning.
 - 4.23 Amenities for Divyangjan at stations shall be as per guidelines issued by Railway Board from time to time.
 - 4.24 Ceremonial flags may be provided at appropriate space in the station.
 - 4.25 At least two station name boards should be LED based with good visibility for the passengers of trains passing through the station.
 - 4.26 Circulating area boundary wall normally should not block the view of the station from outside. Access may be controlled by iron/steel grill fencing.
 - 4.27 Sufficient number of toilets shall be provided at all categories of stations with separate provisions for women and Divyangjan. Location of toilets should be appropriate to station usage, easily visible and accessible.
 - 4.28 Gradual shift to sustainable and environmental friendly solutions as per availability of funds and condition of existing assets.
 - 4.29 Illumination levels specified vide Railway Board's letter no. 2008/Elect(G)/172/1 dated 08.03.2019 for the then A1 and A category stations shall be applicable for Amrit Bharat Stations(Annexure-I). To further improve the overall look of a station through façade lighting, the Railways can decide on their own type of façade lighting based upon the layout of a particular station.

Pl
23/12/22

23/12/22

4.30 CCTV surveillance system along with panic button at various location in the stations to be provided in consultation with security branch.

4.31 Any other item as considered necessary by DRM/GM.

5. Scale of amenities: Scale of amenities and facilities to be provided shall be finalized based on the broad guiding principles given above, footfall at the station, stakeholder consultations including users, different departments and local authorities and with approval of DRM. A format for stakeholder consultations is attached as Annexure-II. Detailed instructions from Railway Board regarding signages shall follow. The present Scheme shall also evolve with future instructions issued by Railway Board from time to time.

6. Selection of station: It may be done based on suggestion of a committee comprising Sr DEN/Co, Sr DCM and Sr DFM with the approval of DRM, and as per the instructions given by Railway Board from time to time.

7. This issues with approval of Board(M/Infra, M/O&BD, M/F, CRB & CEO).

Sub: Amrit Bharat Station Scheme for Indian Railways.
Ref. : Railway Board letter of even number dated 23.12.2022

Amrit Bharat Station Scheme has been circulated vide above ref. letter. Zonal Railways are required to identify 15 stations per Division to be developed under this scheme. Due care must be taken in following the modalities set out in the policy for selection of Stations. The exercise must be concluded expeditiously.

2. The list of Stations selected under the Scheme may be communicated to Gati Shakti Station Development Directorate by 31.12.2022.
3. The consultants required for planning the works under the scheme may be engaged by DRMs using the available provisions under existing umbrella works of PH-53.
4. The tenders for the works so planned may be invited pending sanction of detailed estimates and proposals may be submitted for Works Programme, however care may be taken to not to incur any liability till sanction of detailed estimates.
5. RLDA may submit the draft guidelines for signages on the earliest.

This issues with the concurrence of Associate Finance of Gati Shakti Directorate of Railway Board.
