SUB : Condemnation of overaged electric locos
Ref : Board's letter of even number dated 03.09.07

Board, vide letter under reference, have laid down the procedure for condemnation of overaged electric locos. It has been mentioned that condemnation of overaged electric loco shall be done on age-cum-condition basis and not simply because they have achieved their codal life.

A number of WAM4 locos are reaching completion of their codal life during 2010-11. It is desired that Chief Electrical Engineers should personally take care to ensure that only those locos, where condition does not permit their continuance in traffic service, are considered for condemnation.

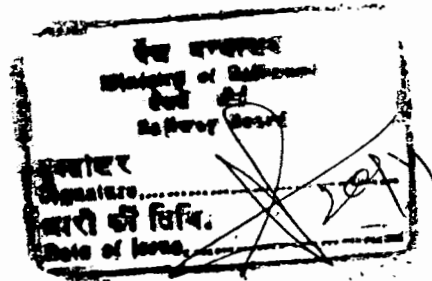

Zonal Railways may take necessary action accordingly.
