This certificate is valid provided the rake integrity is not broken or changed, or the train Locomotive is not changed. If the rake integrity is broken or the train engine is changed, this certificate should be revalidated through endorsement in the column provided on the reverse after ensuring brake continuity, provided the coach(es) being attached, if any, have been maintained as per extent instructions. The certificate shall also be required to be revalidated after every terminal attention to trains under RPC-IV, if applicable.

महत्वपूर्ण निर्देश IMPORTANT INSTRUCTIONS

- 1. The incoming Loco pilot shall handover the certificate to relieving Loco pilot. If he is leaving the train without relief, it shall be deposited with the authority nominated to receive it, who will give it to the outgoing Loco pilot.
- 2. The Loco pilot & Guard will satisfy themselves from the coach nos. given in item 10 that the certificate pertains to their train.
- 3. It is the responsibility of the Loco pilot of trains to satisfy himself that the brake power certificate is proper and valid.
- 4. If two trains starting from different station and amalgamating into one train at enroute station, the BPC for individual trains shall be clubbed at the intermediate amalgamating point, revalidated and the train worked upto the destination.
- 5. If train originating from one station and disintegration into two/more trains at an enroute station, the originating station shall issue separate BPCs for all the trains which are to be formed after disintegration at an intermediate station. At the intermediate station, the respective BPCs shall move along with the trains after revalidation.

^{*}Applicable where revalidation is done after terminal examination under RPC IV.
