ECR: (1) GHD - CPU - MUDA is single line section, out of which CPU-MUDA is non electrified section.

(2) Heavy flow of freight services over this section. Considering the above factor, it is not feasible to introduce a new train over this route. However after completion of doubling it may be considered later on.

Railway Board Proposal No. 29

Minutes of JRTTC 2020 Meeting held at Bengaluru
on 26-02-2020 to 28-02-2020.

RB agenda Item No. 29

Extension of 12476/12475 (SVDK-HAPA-SVDK)

On extension Train No. 22962/22961 (ST-HAPA-ST)

Inter-city exp. which is starting from HAPA on TUE
and terminating on MON. at HAPA will have one
more day terminated at HAPA on TUE and will
start from HAPA on Wed. Hence one more day
ST-JAM-ST service will be curtailed.

It is proposed that by the rake of 12472
SVDK-JAM S/fast exp, 12475 HAPA-SVDK will be started
(JAM does not have maintenance facility and rake
carried to HAPA and after maintenance will be carried
back to JAM hence 2 empty movements take place)
and by the rake of 12476 SVDK-HAPA-SVDK S/fast exp.
12477 JAM-SVDK S/fast exp will run this will result
into improvement in punctuality as rakes are maintained
at HAPA pit line.

Any new extension to JAM will involve 2 empty
movements in HAPA-JAM single line section which
will affect the running of other trains.

Proposal will be feasible after commissioning of
new terminal facilities at JAM

DROP

Minutes of IRTB 2020 Meeting held at Bangalore from 26-2-2020 to 28-2-2020

Item:- Change in days of 12477 & 12475
12478 DN SVDK JAM S/Fast Sindh Weekly Express arrives JAM at 21:00 on Mondays and departs at 5:15 hrs. on Tuesdays as 12477. Total lie over is 8:15 hrs in which the rake is being sent to WAPA (The distance is 8.64 kms) for Secondary. Maintenance between 22:00-4:00 slot of 12478 is running late due to any unforeseen matters then 12477 will be started late ex JAM as there is very short lie over. To overcome the problem and minimize empty running bet WAPA JAM and enhancement of lie over it is proposed to change the days of 12477 and 12475 train-SVDK S/F Express vice versa.

By the rake of 12478, 12475 will be started on Tue ex WAPA and by the rake of 12476, 12477 will be started ex JAM on Wed. This will ensure right time running of 12477 & 12475 as empty movement bet JAM WAPA for once for 2 trains instead of twice for single train.

In repositioning 22761 ST-WAPA Intercity Express which is being terminated at WAPA on every Mon will be terminated on Tuesday and 22762 WAPA-ST Intercity Exp which is being originated at WAPA on Tue will be on Wednesday.
