B. Train no 19019/19020 BDT's-DDN-BDT's Express (Load-24) train runs between BDT's-DDN-BDT's. Slip coaches of 29019/29020 MDS-MTC-MDS (Load-08) are attached at Kota Jn with main train 19019/19020, which are detached at Meerut and vice versa.
Train no.29019/29010 MDS-MTC-MDS is maintained at MTC for Primary schedule. Due to this, train no. 19019/19020 suffers for 45-50 minutes at MTC due to shunting work.
To avoid detention of train no. 19019/19020 at MTC. It is proposed that MDS-MTC slip coaches may not be detached at MTC to avoid shunting. This portion may be sent to DDN/HW.

19. Train no.14511/14512 PYG-SRE Exp (Load-22) runs between PYG-SRE. Two slip coaches are detached at HPU, 14 at MTC and rest 06 coaches go to SRE. For this shunting is carried out at HPU and MTC, due to which extra time is required. This train is a perennially late running train and many complaints are received due to this. Primary maintenance for this train is done at MTC and SRE. To avoid shunting at two terminals and occupation of washing lines simultaneously at two terminals, it is proposed that slip coaches may not be detached at HPU and MTC.
