Respected Sir,

Hope you are doing well.

I would like suggest on the giving this train an additional stop at Kalyan Junction.

Requesting for experimental 2 to 5 minutes stoppage at Kalyan JN.

* Traveller from Satellite City Ambernath/ Ulhasnagar/ Titwala/ Dombivli/ Bhiwandi/ Thane City/Mumbai City - Its would big relief to us, traveling to Jabalpur, Bhopal Nasik, Konkan region, Mangalore, North Kerala and Coimbatore. Currently its take lot of time to reach Panvel Junction.

* I understand due to peak time zone, central railway may not have not approved it earlier or may shown their concern for not having KYN halt.

* Trains while approaching KYN, always have to stop at outer for signal clearance and have an slower crossover, having an halt may not cause too much delay.

* An PNR past traveller address analysis from Panvel Junction, will have 99 % of commuters residing to a city near Kalyan JN.

Its would be win+win to WCR railways and commuters with this additional halt, at Kalyan Junction - KYN. (This would be second train on Konkan route , first Mangala Express)

Additionally when this train would be assigned with LBH coaches, I understand you would have it on your priority assignment.

Thanks for patience for reading my suggestion.

An humble rail commuter.
